Vazquez MG see Kleinpell RM

Walker E see Smilova A

Wayland R see Thorbs N

Weber MM, McErlean ES: Stabilizing unstable plaque in acute coronary syndromes: implications for cardiac surgical patients, Aug:78

Wong FWH: Prevention of secondary brain injury, Oct:18

SUBJECTS

Alternative therapies

Alternative and complementary modalities for managing stress and anxiety [Keegan] June:93

Providing spiritual care to cardiac patients: assessment and implications for practice [Halm] Aug:54

Angioplasty

Recovery after percutaneous transluminal coronary angioplasty: assessment after discharge [Cronin] Apr:70

Aspergillosis

Nursing care after pneumonectomy in patients with invasive pulmonary aspergillosis [McHale] Feb:37

Blood specimen collection

Use of blood cultures in critically ill patients [Henker] Feb:45

Brain injuries

Prevention of secondary brain injury [Wong] Oct:18

Cardiac output

Measuring cardiac output: intermittent bolus thermodilution method [Gawinski] Apr:118

Caregiver burden

Nurturing unborn baby strains nurses' emotions [Petterson] Aug:112

Cerebrospinal fluid

Managing patients with lumbar drainage devices [Thompson] Oct:59

Competency assessment

Competence assessment approach broadens view of nursing skills [Petterson] June:112

Employee competency pathways [Good] June:75

Cross infection

Preventing nosocomial pneumonia: evidence-based practice [Harris] Feb:51

Cultural diversity

Time for sensitivity training [Alspach] June:14

Translating Spanish: a brief guide for intensive care and acute care nurses [Kleinpell] Apr:100

Dosage calculation

Calculating medication dosages [McMillen] Dec:17

Electrocardiography

Real-time application of continuous 12-lead ST-segment monitoring [Crater] Apr:93

Real-time application of continuous 12-lead ST-segment monitoring (correction) [Crater] June:26

Enteral nutrition

Early enteral feeding of patients with multiple trauma (correction) [Cheever] Feb:17

Ethics

Decision making by surrogates [Day] Apr:107

Ethics and practice in organ transplantation in patients infected with HIV [Ricci-Murphy] Apr:85

Family

Nurse-coached intervention for the families of patients in critical care units [Appleyard] June:40

Visitors have information and insight at their fingertips [Petterson] Apr:136

Visual tools for families: a picture is worth a thousand words [Petterson] Dec:96

Heart surgery

Managing hypotension after cardiac surgery: an algorithm for treatment [Petersen] Apr:36

Same-day transfer of patients to the cardiac telemetry unit after surgery: the rapid after bypass back into telemetry (RABBIT) program [Sakallaris] Apr:50

Stabilizing unstable plaque in acute coronary syndromes: implications for cardiac surgical patients [Weber] Aug:78

Hypertension, pulmonary

Intravenous epoprostenol: a new therapy for primary pulmonary hypertension [Sabo] Dec:31

Managing pulmonary hypertension in heart transplantation: meeting the challenge [Coe] Apr:22

Hypotension

Managing hypotension after cardiac surgery: an algorithm for treatment [Petersen] Apr:36

Infections

Mucormycosis: a case study [Bell] Feb:18

Meningococemia: a critical care emergency [Smilova] Oct:28

Vibrio vulnificus sepsis [Pressly] Oct:78

Intensive care, neonatal

Nursing care of neonates receiving intravenous prostaglandin E₁ therapy who are not in an intensive care unit [Hudspeth] June:62

Lung transplantation

Living-donor lobar lung transplantation: a case study [Duquette] Feb:69

Monitoring

A comparison of hydrostatic leveling methods in invasive pressure monitoring [Rice] Dec:20

Monitoring pulmonary artery pressures: just the facts [Bridges] Dec:59

Nursing practice

Reduced noise levels in ICU promote rest and healing [Pettersen] Oct:104

Strengthening nurses' moral agency [Hayes] Oct:90

Using the Synergy Model to link nursing care to diagnosis-related groups [Doble] June:86

Establishing criteria for 1:1 staffing ratios [Hartigan] Apr:112

Nursing shortage

Another nursing shortage wakeup call? [Alspach] Dec:8

Overdose

Acute acetaminophen overdose in adolescents and adults [Hamm] June:69

Overdoses of tricyclic antidepressants: grandchildren and grandparents [Lewis-Abney] Oct:69

Pain management

Sedation and pain management in critically ill adults [Arbour] Oct:39

Phenytoin

Recognizing and managing purple glove syndrome [Snelson] June:54

Pneumectomy

Nursing care after pneumectomy in patients with invasive pulmonary aspergillosis [McHale] Feb:37

Poisoning

Ethanol, isopropanol, methanol, and ethylene glycol poisoning [Lobert] Dec:41

Professionalism

Critical care nurses whose generosity inspires [Alspach] Aug:14

Lowell General Hospital

*"Practice with the best,
Stay true to your calling"*

Patients First In Everything We Do

"Practice with the best in an atmosphere of trust and commitment to the principles that made you chose a career in nursing"

- Full-time
- Part-time
- Per-diem

REGISTERED NURSES

- ICU/IMC
- Level II Special Care Nursery

We offer a competitive salary and comprehensive benefits package, including on-site child care. Interested?

Please forward your resume to: Human Resources, Lowell General Hospital, 295 Varnum Avenue, Lowell, MA 01854
Fax: (978)937-6891
E-mail: resume@lowellgeneral.org

An equal opportunity employer, M/F/D/V

Built on Tradition Strengthened by Talent

New England Medical Center, a major academic teaching Hospital conveniently located in the heart of downtown Boston offers professional growth, a stimulating work environment, coupled with competitive wages, flexible scheduling and an outstanding benefit package.

Please send or fax resume to: New England Medical Center, Attention: Jeanne Waller, Nurse Recruitment, NEMCH Box #465, 750 Washington Street, Boston, MA 02111; Fax: (617) 636-6279; Email: JWaller1@lifespan.org. An Equal Opportunity Employer who upholds a distinct commitment to diversity in all we do. For more information, visit our website: www.lifespan.org.

As a Lifespan partner, and the principal teaching facility for Tufts University School of Medicine, we offer you an environment that fosters your educational development, encourages physician/nurse interactions, and a cross-discipline partnership that makes a difference in the quality of care.

New Nursing Rates Effective October 2000

- New Staff Nurse base hourly rates range from \$19.49 per hour up to \$33.31 per hour depending upon years of nursing experience.
- Shift differential of \$1.40 per hour up to \$3.65 per hour will be included dependent upon shift.
- Degree differentials will also be added to base rate when applicable.
- New rates for Nurse Practitioners and Clinical Educators.

Full and part-time Critical Care opportunities exist in the following areas:

- | | |
|--------------------------------------|---------------------------------|
| ■ Medical Intensive Care Unit | ■ Pediatric Intensive Care Unit |
| ■ Emergency Department | ■ Neonatal Intensive Care Unit |
| ■ Cardiothoracic Intensive Care Unit | ■ Operating Room |
| ■ Surgical Intensive Care Unit | ■ Coronary Care Unit |
| | ■ Critical Care Resource Team |

Lifespan Partners

AUTHOR AND SUBJECT INDEX 2000

Internet relay and Web-based chat:
powerful tools for teaching and collegial
networking [Russell] Aug:74

Messages of professional empowerment
from the Land of Oz [Caine] Oct:8

Psychosocial aspects of illness
Does "ICU psychosis" really exist? [Justic]
June:28

Publishing
Meeting your information needs in the
new millenium [Alspach] Feb:11

The publishing partnership experience
[Miracle] Apr:19

Quality of care
Same-day transfer of patients to the
cardiac telemetry unit after surgery: the
rapid after bypass back into telemetry
(RABBIT) program [Sakallaris] Apr:50

Ward grannies provide loving care
[Pettersen] Feb:104

Respiratory distress syndrome
Prone positioning of patients with acute
respiratory distress syndrome: applying
research to practice [Balas] Feb:24

Sedation
Sedation and neuromuscular blockade in
patients with acute respiratory failure
[Luer] Oct:84

Sedation and pain management in
critically ill adults [Arbour] Oct:39

Soft tissue injuries
Recognizing and managing
purple glove syndrome [Snelson]
June:54

Splenic rupture
Managing children with splenic
laceration [Delp] Aug:92

Telemetry
Same-day transfer of patients to the
cardiac telemetry unit after surgery:
the rapid after bypass back into
telemetry (RABBIT) program [Sakallaris]
Apr:50

Trauma
Blunt chest trauma: case report
(correction) [Flynn] Feb:17

Early enteral feeding of patients with
multiple trauma (correction) [Cheever]
Feb:17

Managing trauma patients with
abdominal compartment syndrome
[Fritsch] Dec:48

Vascular surgery
Carotid endarterectomy: creating the
pathway to 1-day stay [Kallenbach]
Aug:23

Endovascular grafting for repair of
abdominal aortic aneurysm [Jones]
Aug:38

Coronary rotational atherectomy: a
nursing perspective [Thorbs] Apr:77

Ventilation, mechanical
Combining mechanical ventilation with
hospice care in the home: death with
dignity [Creechan] June:49

Traditional and nontraditional modes of
mechanical ventilation [Pierce] Feb:81

Ventriculostomy
Managing patients with lumbar drainage
devices [Thompson] Oct:59

The Difference is You!

At GCSH, our mission is to help those we serve realize greater well-being, independence and enjoyment in life. For more than a century, our employees have helped fulfill that mission by meeting the special health needs of infants, children and adults who have physical and functional disabilities.

It takes individuals who are dedicated to making a difference in the lives of children to fulfill this mission. Our nurses are rewarded for their superior performance with our unique pay-for-performance system. Opportunities exist for experienced ICU nurses.

**We have openings in our PICU
department to work straight nights at
.8 but get paid for full time.**

Don't miss out on YOUR opportunity to make a difference in a child's life. Please send resumes to:

**Gillette Children's
Specialty Healthcare**
Visit our website at www.gillettechildrens.org

Gillette Children's Specialty Healthcare
Attn: Human Resources, Dept. B

Like our view, our opportunities

are truly spectacular.

From the snowcapped mountains of Flagstaff to the Verde Valley River at the foothills of the Mingus Mountains, Northern Arizona Healthcare has state-of-the-art facilities and boasts the most sophisticated and comprehensive healthcare services in the region. Find the freedom of year-round outdoor activities combined with cultural, scenic and professional diversity.

Verde Valley Medical Center

- Critical Care - Full time, nights
- Telemetry - Full time, nights

Flagstaff Medical Center

- Clinical Coordinator
- Critical Care Nurse Case Manager
- Critical Care Nurse - 36 hours per week, nights

Sign-on bonus for Flagstaff staff RNs. Relocation assistance is provided for both facilities. Northern Arizona Healthcare offers excellent compensation and benefits including a 401(k) plan.

To apply for positions in Flagstaff, contact **Human Resources, 1200 N. Beaver St., Flagstaff, AZ 86001**. Call us at (800) 446-2324 or fax to (520) 773-2579. To apply for positions in Verde Valley, contact **Human Resources, 269 S. Candy Lane, Cottonwood, AZ 86326**. Call us at (888) 249-9995 or fax to (520) 639-6387. EOE
